

Praise the Lord. All Glory to God. His blessing to us and He is using us for His Glory. This is the update of Uludanga mission fields; We have done a great worship and food program there 15th July. There were present most of people of our mission member parents, widows, children everybody. We done a regular worship and we teach the subject what in scheduled. We do a session called Discussion meeting, there we hear from them, what they learned what they need and how they can help us to do complete our task what we start for children.

We saw their poorness as they can't take care properly their children and even some time they can't take care their families! Father and mother are all time busy for their work for foods collection, one day work one day food. We talked to children for what they have needs too; they are very excited and happy for classes. They are happy for what we are giving every month. Teachers are taking huge care as our instruction.

We are seeing, day by day parents are growing in Biblical way, children also following the teaching. They are no longer as chaotic as they were at the beginning. We are giving thanks to local Pastor Tapon and teacher. In this program, we gave them healthy food. My wife Kona and my mother cooked for them rice, chicken, egg and vegetables. They were very happy for the food.

They have some needs what they asked to us. They need a sitting place where they can worship and children classes as last 6 years we are doing open yards worship in hot, cold and rain. They need a worship and class room where they can do all activities safely. They need Bible and sitting mat. So we request and pray that please keep the request in prayer for them. We and our mission people are praying everyday for you and all brethren. Godspeed
